Book and cover design by Alyssa Piccinni

CONTENTS

FOREWORD	1
OVERVIEW	3
CHAPTER 1: FUNDAMENTS OF NUCLEAR PROPULSION	11
Thermal Nuclear Rockets?	11
Fundamentals of Nuclear Reactors.....	15
Reactor Elements	15
The Fission Process.....	18
Shielding.....	21
CHAPTER 2: NUCLEAR THERMAL PROPULSION REQUIREMENTS	27
Mission Applications.....	27
Safety Issues Relevant To Nuclear Thermal Propulsion	32
Safety Requirements and Approaches.....	33
Risk and Safety Analysis Methodology	34
Life Cycle Risk Assessment.....	36
Safe Ground Testing of Nuclear Rockets.....	36
Special Precautions Needed At The Launch Pad	38
Launch Site Contamination Accidents--Fires	38
Launch Site Contamination Accidents--Explosions	39
Ground Nuclear Waste.....	39
Launch Approval.....	39
Crew Safety From Reactor Radiation	39
Criticality Prevention During Launch/Ascent Accidents.....	40
Plans To Cleanup Contaminated Land Areas	41
Operation Below "Nuclear Safe Orbit" or "Sufficiently High Orbit"	41
Near-Earth Space Contamination.....	42
Affects On Other Satellites and Experiments	42
Final Disposal of Nuclear Engines/Prevention Of Nuclear Rocket Earth Impact.....	42
Safety Questions Summary	42
Reliability	43
Cost, Schedule and Man-Rating	43
Possible Future Nuclear Thermal Propulsion Requirements	44
CHAPTER 3: ROVER/NERVA PROGRAMS	45
Overview	45
Reactor Development	50
NERVA Engine Development	57
NERVA Safety Program	71
Nuclear Rocket Development Station (NRDS).....	74
Dual Mode System	77
Potential Rover/NERVA Growth	79
Summary	82
CHAPTER 4: RUSSIAN NUCLEAR ROCKET DEVELOPMENT	85
Design and Experimental Test Results.....	85
Summary	92
CHAPTER 5: PARTICLE-BED REACTOR NUCLEAR ROCKETS	93
Particle-Bed Reactor Description	93
Technology Status	97
Summary	99
CHAPTER 6: ADDITIONAL NUCLEAR PROPULSION CONCEPTS	101
Pellet Bed Reactor Concept	101
Wire Core Reactor Concept.....	103

Conical Fuel Core	107
Pressure Fed Nuclear Thermal Rocket (PFNTR).....	108
Liquid Core Concepts	110
Gaseous Core Reactors	112
CHAPTER 7: NTP KEY DEVELOPMENT ISSUES.....	117
NTP Fuels	117
Engine Cycle Design Considerations.....	124
Meeting More Restrictive Engine Testing Environmental Standards.....	130
Overall Relative Maturity of NTP Designs.....	132
Some Day -- Fusion	133
NOTES	135
